## **REASONS FOR ALLOWANCE**

### ***Allowable Subject Matter***

1. Claims 1-11, 13-19, 13-23, and 27 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record fails to teach, a communication system and mobile stations where the system determines whether or not the mobile stations are in scan mode and correspondingly sends data messages with or without preamble messages, respectively, the preamble messages are followed by packet data messages with short confirmed data messages between the packets.

Larsson et al. (6,463,307), disclosed a communications system and mobile stations wherein the system determines whether or not the mobiles is in scan mode, and correspondingly sends data messages with or without the preamble messages, respectively, depending on the determination of scan mode. Larson however does not teach the data message comprises a plurality of data packets and the step of sending the data message comprises inserting a short confirmed message packet between each of the plurality of data packets.

### ***Conclusion***
